FUNSTON LED BRILLIANT CHARGE

Rebels Numbering About One Thousand Quickly Dispersed

Manila, May 24.—[Special]—Lawton, with the main body of his troops, has reached Malolos.

It is learned that twenty insurgents were killed and forty wounded in an engagement with the scouts at Bacolor yesterday. The Oregon and Minnesota volunteers have returned to Manila for a needed rest.

Gen. Funston has again distinguished himself in a fight with rebels near Santa Anna today.

Scouts sent out by Gen. MacArthur were fired on from trenches and then they withdrew. MacArthur, who heard the firing, sent Gen. Funston with Montana and Kansas regiments to the scene. Funston at the head of his troops led a brilliant charge on double quick, sweeping the rebels from their position and dispersing them.

The insurgents, who numbered about a thousand, lost heavily. About twenty Americans were wounded.

Manila, May 24.—At a joint meeting of the Filipino and American peace commissions held Tuesday the Americans made the first definite announcement as to what extent the Filipinos would be allowed to participate in the government of the islands.

When Argueles entered Manila on April 28 he stated that the Filipinos wanted peace, but that they did not wish to sacrifice their honor to obtain it. For this reason they did not want to surrender until it was understood exactly what the American government proposed doing. He claimed that an unconditional surrender without this information would humiliate them before their followers, that the people mistrusted the vague promises in the proclamation as to what the president would do.

President Schurman of the American commission cabled to President McKinley, and the latter sent a plan of government which followed the commissioners' recommendations. In this same message President McKinley expressed a desire that bloodshed should cease, and that the Filipinos would be able to enjoy soon the largest possible measure of self-government compatible with peace and order.

The American commissioners laid the scheme before the Filipino commission. President Schurman expressed it as his opinion that the arrangement gave the Filipinos an opportunity to surrender without humiliation and also the opportunity to co-operate largely in the government of the islands.

After the session the Filipino commissioners expressed displeasure with the proposition. They said that the arrangement, as it depended upon the approval of the American congress, was merely temporary, that the Americans offered almost nothing, as they retained the right to appoint all officials from the American population. The insurgent commissioners claimed that the native advisory board was powerless to do anything except to make suggestions. One said: "I think we can get better terms."

It is said that the Filipinos were dismayed at the terms laid down in President McKinley's cablegram to the American commissioners. In compliance with the demand that they lay down their arms, every Filipino com-

missioner shrugged his shoulders, and as the glowing prophecies of the future were outlined to them by one of the members of the commission it is said the Filipinos replied that they had asked for independence and liberty with dignity, under the protection of the United States, but were offered in return nothing but the indefinite assurances of an individual that the natives ought to hold official positions. They said they would not accept a single condition proposed, and that they would return to Aguinaldo.

The American military men consider the situation as most hopeful. They predict, however, that Luna will remain obdurate, and that further fighting is inevitable regardless of the result of the conferences. The military men also claim that further conferences are likely to inspire the insurgents to make greater demands.

The commissioners expect to return to Aguinaldo Thursday and report the result of their conferences with the American authorities.

Rebels Too Many for Them. Manila, May 24.—Major Bell, with two companies of the Fourth cavalry, has been reconnoitering in the direction of Santa Anita. He found a hundred Filipinos there, and was driving them away, when large reinforcements of rebels arrived and he was obliged to withdraw with four men wounded.

A raft carrying soldiers of the Fourteenth regiment has been sunk at the Pasig ferry. One man was drowned. The wet season has finally begun, and another week's rain will make the rice fields thick with mud.

CASH WILL BE TAKEN.

Cubans Are Still Protesting, but Will Give Up Their Arms.

Havana, May 24.—The Cuban radicals are still protesting that they will not take the American money if they must give up their arms. Not many of them are likely to persist in this resolution. They will take the cash and give up the arms.

Interest in the disarmament question is apparently waning. The Reconcentrado is the only paper which discusses the matter. It says that the American money appropriated for the payment of the Cuban troops will go back to the United States untouched. The American authorities expect, however, that a majority of the soldiers will appear on the designated days and take their money, and are proceeding accordingly. Gen. Gomez is very anxious for the Cubans to accept the money. He called a meeting of his generals at the Hotel Roma Tuesday, at which he urged them to use all their influence to get the men to accept payment. He said that he would appear in a ridiculous light if they did not.

Well Done.

Recently a boat's crew from a wrecked steamship were driven about at the mercy of the sea. A gale was blowing, it was bitterly cold, and the suffering of the poor men was beyond description. Their hands and feet were frost-bitten, and finally, crazed with cold and pain, some of the men wished to commit suicide. Then Sailor Green, although suffering as much as the rest, encouraged them. All through the terrible night he told funny stories, sang cheerful songs, and kept up the spirits of his companions by every possible means. In the morning he and his companions were rescued. This man, undaunted—although wet, hungry, benumbed and exhausted—and thinking in his extremity not of himself, but of his comrades, teaches a lesson that is worth remembering.

CASHIER OF BANK TELLS STORY OF THE CRIME.

The trial will probably last a week.

His Bones Like Chalk.

Baraboo, Wis., May 24.—A peculiar case, which puzzled the physicians of this city, was that of J. N. Savage, who died this afternoon. About a year ago Mr. Savage was afflicted with what was supposed to be sciatic rheumatism, and one day while stepping out of a carriage he broke the bone of one of his legs. The bone was set but did not heal, causing a running sore. As a last resort the limb was amputated, which operation was performed in Chicago. He survived the operation and seemed apparently well. Recently his condition became worse and at every attempt to move in bed some bone in his body, which were as brittle as chalk, was broken.

ADMIRAL DEWEY WANTS THE ISLES

SAYS HE WOULD NOT GIVE UP THE PHILIPPINES.

The Hero of Manila Bay Said He Was Sorry to Leave at this Time, But Could Not Stand the Care and Responsibility Much Longer—Enthusiastic Over Country.

Hongkong, May 24.—Admiral Dewey said last night, after the excitement of the day had subsided and he was able to talk quietly with his friends:

"I am not sorry to leave Manila at this time. I could not stand the care and responsibility much longer. During the year that has passed since we went to Manila I have not had a sick day until now. One year is long enough in this climate for an old man, and I am glad to be able to rest. I expect to remain in Hongkong two weeks. My intention is to spend the time at Victoria peak, where I hope to be free from worry. Nobody is more sensible of the kindness of the people who have extended me invitations, but I do not wish for entertainment. My health will not stand it at present. Two weeks of quiet at the peak ought to make a new man of me."

"I am enthusiastic over the future of the Philippines. I hope to see America's possessions the key to oriental commerce and civilization. The brains of our country will develop the untold agricultural and mineral richness of those islands. We must never sell them. Such an action would bring on another great war. We will never part with the Philippines, I am sure, and in future years the idea that anybody should have seriously suggested it will be one of the curiosities of history."

"The insurrection is practically over. There will be no more hard battles and the new era for the islands that was delayed by the rising will soon begin. Aguinaldo and his generals must be captured and the very semblance of an insurrection will then cease. The end is near, if we push right after the enemy. We must concentrate our troops and prosecute the campaign in Luzon vigorously. The southern islands will quickly fall in line."

Tennyson's Humility.

The poet Tennyson was gifted with the grace of humility. His letters disclose his dissatisfaction with himself and his achievements. He pitched his ideals high, and he knew none more clearly, when he failed to grasp what he had reached after. An anecdote contributed by the duke of Argyll and quoted by Miss Cary in her volume, "Tennyson," exhibits the poet's humility. "The first words I heard him utter," says the duke, "remain indelibly impressed upon my memory. On being introduced to him at an evening party in the house of Lord John Russell, I said, perhaps with some emotion: 'I am so glad to know you!' Not in the tone of voice of a mere conventional reply, but in the accents of sincere humility, he answered: 'You won't find much in me—after all.'"

Atmospheric Vibrations.

MUST KEEP A LIST OF MINOR EMPLOYEES

MANUFACTURERS REQUIRED
TO PROVIDE REGISTERS.

Parents Or Guardians Must Furnish the Information Under Oath—Inspector Can Call For a Physician's Certificate As to the Minor's Physical Ability to Perform His Work.

The state factory inspector is now sending out circulars to manufacturers in accordance with the law passed April 27, and known as "An act to regulate the employment of minors in the state of Wisconsin." The purpose of the new law is to abolish the custom of employing minors of a tender age. The blanks just received are for the purpose of keeping a register of the minors employed, the age and place of residence. Section 1 provides that no child under 14 years of age shall be employed at any time in any factory or work shop or about any mine or in any mercantile establishment or at other employment except during vacation of public schools of the locality in which the child resides.

Must Keep Register

Section 2 provides that every person or corporation employing minors shall keep a register in which shall be recorded the name, age, date of birth, and place of residence of every child employed under the age of sixteen years. It further provides that no such minor shall be employed except there is first provided and placed on file with such employer an affidavit made by the parent or guardian, and sworn to before a notary public, setting forth the name, date and place of birth and name, place and time such child has attended school. Such register and affidavits shall be shown to the factory inspectors at any time upon demand.

Provisions are also made in the law that the inspector may visit all factories when he desires and provides for the prosecution of all offenders. The law empowers such inspectors to cause to be furnished a certificate from a physician that a child is able to perform such duties as his employment demands at any time if the child appears to be physically unable to perform such duties.

Can Grant Permits.

Section 6 permits the commissioners of labor factory inspectors or county judges to grant permits for a child over twelve years of age to enter employment which the law prohibits, provided it is necessary for such child to do such labor for the support of its family or itself under such limitations as seem advisable.

Section 8 defines manufacturing establishments, factories and workshops as used in the law, and section 9 provides that employers who violate the law are liable to punishment of not less than \$10 nor more than \$100 for each offense. It also provides the same punishment for refusal or hindrance of inspectors in their duties.

Section 10 provides that parents who violate the law shall be fined not more than \$25 nor less than \$5.

AUTOMATIC GOAT FOR LODGES

A Scheme That May Interest Local Secret Societies

The latest electrical device to be invented is an automatic goat for lodge purposes, and a description of the contrivance may be the means of interesting the members of Janesville secret societies. The inventor is Toney Gronendyke, on Ashland avenue, near Eighteenth street, says the Chicago Inter-Ocean. Gronendyke is a member in good standing of some fifteen different secret societies in which goats are used in the initiatory ceremonies. He has an inventive mind, and several electrical appliances which he conceived and perfected are in general use.

The trouble and expense of keeping a goat in a lodge room and the numerous painful accidents to the animals from the hard work they are called upon to perform, caused Gronendyke to turn his

attention to inventing a substitute. He has been working night and day on a model for several months and has at last completed a mechanical goat, operated by an electric motor that performs most astonishing feats, leaping and pouncing and bucking with all the ardor of the most ambitious billy. It is so natural and lifelike that the boys in the neighborhood throw tin cans under its nose and are disappointed that it does not eat them.

The goat is so contrived that once set in motion it goes in circles the size of which are regulated by tiny wheels which can be set to keep the animal in circumscribed limits. In a trial of the machine Saturday night six ex-members of the First Illinois Cavalry, men who had conquered many stiff-necked, stiff-legged, high-jumping cavalry horses, which were sold to the government as "regular rocking horses," were thrown one after another by the goat, and bucked all over the back yard.

The automatic goat has a beat that would stir the heartstring of a dog catcher, and when it gets warmed up to its work it throws off its rider—also an aroma that would deceive a resident of Goose island.

Gronendyke has figures to prove that there are 43,978 secret societies in the United States to which goats are necessary in conferring the degrees, and as he can supply an automatic, bewhiskered, bleating, bucking billy for a slight advance in price on the real animal, and it can be kept in the lodge room without any expense whatever, he expects to do a rushing business in their manufacture.

He has made application to the committee of the autumn festival for permission to give an exhibition of a flock of automatic goats in the stadium for one evening during the week. He thinks of offering a liberal prize to any one who succeeds in riding one of his electric animals once around the course in the stadium he can interest the audience and make his invention known to all the world.

SCARCITY OF POTATO BUGS

Tuber Plants Escape the Usual Pests This Spring.

"Farmers, and men who grow private gardens as well, have been missing something this spring," said a well known Rock county farmer today. "It was some time before each began to realize that a familiar pest had failed to make its appearance, and then the question became general, when one farmer or gardener would meet another: 'Have you seen any potato bugs this year?' The answer has always been, 'I have not. One big potato grower also added the following: 'And I don't expect to see any this year either. The cold weather of the past winter must have penetrated into their retreats and killed all of them. In former years the fields have been covered with them at this time. In fact the bugs used to sit up on the hillocks waiting for the sprouts to appear so as to get in their work. This year I haven't seen a bug. In the spring time when an old potato field is plowed up they come up and stay until the last 'spud' is carted away and the last stalk is dead. When plowing this spring I could not find one although I looked hard. No sir, I don't think we will be bothered with doylephora decemlineata this year.' All of which may atone in a measure for the loss of grape vine and other truck."

This money is a forfeit for the appearance of the men in the ring at the proper time, and the one failing to comply with the articles will lose the above amount.

SEVERAL USE GRAMAPHONES

Business Men Here Keep Abreast of the Times

Two of the local business men have inaugurated a new move for Janesville in the matter of adding gramophones to their offices.

This wonderful invention of Edison's is but another help to the business man who may now dictate to his stenographer through this machine.

"In case my stenographer is not in the office at the time that I am and if I want to dictate to her," said a local business man, "all I have to do is to talk into the gramophone and the machine will then convey to the stenographer the desired information just as well as if I was doing it."

These gramophones cost \$60 each and the records come at about forty cents each. A record can be used several times by merely shaving it off.

The Parker Pen Company and the Janesville Lumber Company have placed gramophones in their places of business.

I have been a sufferer from chronic diarrhoea ever since the war and have used all kinds of medicine for it. At last I found one remedy that has been a success—a cure, and that is Chamberlain's Colic, Cholera and Diarrhoea Remedy.—P. E. GRISHAM, Gaars' Mills, La. For sale by People's Drug Co.

Why Trade Leaves England.

Here is another little story with a moral which has been enforced several times lately. It illustrates the suspicion and apathy of the English manufacturer. Some time ago an Oxford professor wrote to a number of English firms for some samples of essential oils, to assist him in prosecuting certain researches, the results of which would be distinctly beneficial to the firms themselves. His request was treated with disdain in nearly every case. Writing, however, to a well-known firm in Germany, he received in a few days' time nearly seventy small bottles of the rarest oils known (worth in all about £50), with the firm's good wishes. It is the London correspondent of the Manchester Courier who tells the story.

The Savannah was the result of ten years' experimenting in vessels and machinery for ocean navigation. She proceeded to Russia from England and returned from St. Petersburg to New York in 26 days. Both sails and steam were used.
1870—William Lloyd Garrison, abolitionist and journalist, died in New York; born 1805.
1882—The Brooklyn bridge, the largest suspension bridge in the world, opened to the public.
1890—General John Echols, a noted Confederate veteran, died at Staunton, Va.

NEW CORPORATION LAW.

The new law to compel all corporations to file their list of officers with the register of deeds, is a good one. There are many corporations, these days, some reliable, and some not. The citizen has no way of finding out who are the responsible men in a corporation unless he asks a stockholder. And even then the answer may or may not be reliable. Under the new law, however, the citizen who wishes to sue a corporation can "get service" easily. If the list of officers of the company is not on file, he simply serves the papers on the register and the service on the company is binding. And if the list is on file, it will give the name of the particular officer upon whom legal instruments should be served.

No hardship is thus worked upon the corporation; while the injured person is put in possession of the information that might be difficult to secure were it not for the law.

The Wisconsin National Guard is being re-organized under the Welton law, passed last winter. The law provides for three regiments in place of the four which comprised the guard before the war with Spain. Governor Scofield is also authorized to organize an additional battalion. A majority of the companies which were in the guard and entered the United States service have been again mustered into the guard and will within a few weeks be organized into regiments. The number of regiments having been reduced, a re-arrangement will be necessary, and the military enthusiasts in Milwaukee are anxious to retain the regimental headquarters of one of the regiments there.

Milwaukee Wisconsin—Property owners on National avenue have chosen brick, as against the decayed asphalt with which some of Milwaukee's business streets have been surfaced. Brick has never had a fair trial in Milwaukee, because of the asphalt influence in the city hall.

An actress playing at Milwaukee preferred resigning her job to appearing in tight. The newspapers published the story. People read it. There was a tempest in a teapot for several days. Then the actress relented and wore the tight. 'Twas ever thus.

An exchange says, "some one has ascertained that most of the great men of the world have had blue eyes." How about John L. Sullivan, James J. Corbett, and Robert Fitzsimmons? Do they not have black eyes?

Constant Reader—The regulation, police hat is a black Derby with a flat crown. No change has been made in the hickory part of the uniform, it now being the same as it has been for these many decades.

The Milwaukee silver democrats should not be hard on Committeeman E. C. Wall. It would be really too cruel to force a man who is used to living in Milwaukee to go to St. Louis.

The Oconomowoc Republican in speaking of Janesville's state senator, says, "Wisconsin has few bigger men morally and less better men morally than Senator Whitehead."

In scoring Bryan and his fellow democrats, the Hon. Ig. Donnelly, populist, does honor to himself, Col. Bryan, and the democratic party.

The Baxter investigation at Chicago is a great success and also a dismal failure—depending upon which of the Chicago papers you read.

The bright colored golf caps that the cyclers wear these days are exceedingly appropriate. They're scorches, and no mistake.

Now that the Philippine question is solving itself, the anti-pass law is fully

explained, and the Janesville railway war ended, we feel justified in asking, "What has become of the Mad Mullah of the Swat?"

Havana is rapidly becoming Americanized, as is shown by the fact that a mob of Cubans recently tried to kill a base ball umpire.

The announcement of the formation of a tin can trust will be good news to the homeless dogs, at least.

A Boston paper suggests that the name of the Philippines be changed to Dewey islands.

And Dewey "is coming home for a rest!"

NEATH THE SHADOW OF DEATH

James A. Richardson, only child of Mr. and Mrs. John W. Richardson, passed away at the home of his parents, 157 Fourth avenue, at 12:30 o'clock this morning, after an illness of only three days with cerebro spinal meningitis.

Deceased was about nineteen years of age. He was a promising student of the Janesville High school, also a member of the High school base ball team and participated in the game with the team at Whitewater last Saturday afternoon. Shortly after his return that evening, he was taken ill with acute indigestion, which later developed into the ailment that ended his bright life, although the loving parents and a skilled physician tried patiently to stay the grim destroyer.

James, or "Allie," as he was familiarly known, was a native of Janesville and had always resided here with his parents. He was a very bright and exemplary young man and extremely popular with all who knew him, and will be greatly missed in all the circles to which he has endeared himself, especially in the home circle where he was worshipped. In their sad affliction the heart-broken parents have the sympathy of their many friends.

William H. Hayner. At eleven o'clock last night, William H. Hayner passed into the shadows of the unknown beyond at his home in the town of Rock, five miles southwest of the city, after a long and painful illness.

In August, 1897, Mr. Hayner suffered a stroke of paralysis, from which he never recovered and had he lived until the 26th of this month, he would have reached the seventy seventh milestone of his earthly pilgrimage.

Mr. Hayner was one of the pioneers of Rock county, coming here years ago from New York state, engaging in agricultural pursuits. His wife passed to the other world several years ago. He was a devout christian and a member of the Court Street M. E. church of this city. He leaves two sons, Marvin A. Hayner and John G. Hayner, the latter of Madison, Wis., also a large circle of friends.

George Nolan. Funeral services over the remains of the late George Nolan was held this morning at 9 o'clock at St. Patrick's church, Rev. Father Harlan officiating. After the impressive services the remains were taken to Mount Olivet cemetery for interment. The pall bearers were: Willie Nolan, Thos. Sughrua, John Murphy and Hugh Flaherty.

Twain Wasn't Well. Here is a new story of Mark Twain, whose after-dinner speeches are unique: At a recent dinner to which he was invited his name was associated with the toast of "Literature" by an orator, who referred with great eloquence to Homer, Shakespeare, Milton and Mark Twain. In response the humorist thanked the speaker for his kindly references and excused himself from making a longer speech by saying: "Homer is dead; Shakespeare and Milton are no more, and I—I don't feel well myself."

Beer Made from Water. Beer tabloids are about to be put on the market by a German firm. A small tablet dropped into a glass of water will turn it into beer as fresh as if just drawn, it is asserted.

PERSONAL MENTION.

Governor William Amos Poynter, of Nebraska, is known about his home as the "farmer governor," owing to his having spent twenty-one years in tilling the rich prairie soil.

The ex-Empress Eugenie has, by her will, bequeathed a souvenir to every survivor of the nearly 5,000 Frenchmen who were born on the same day as her own son, the late prince imperial.

John S. Sargent, the artist, has a great deal of trouble with others of his name. The death of one of these recently caused a report of his death to be published, and some years ago a man in England named Sargent became insolvent, and the story went the rounds, that the portrait painter could not pay his debts.

Herr Hermann Holdheim, a well-known German journalist, celebrated his jubilee the other day. He has always been an enthusiastic advocate of democracy, has been prosecuted more than fifty times, and has been sentenced on more than twenty occasions to imprisonment. He is attached to the staff of the Volkszeitung, the proprietor of which paper entertained him and his colleagues at a dinner on the day of the jubilee.

Archdeacon Cyrus T. Brady (Episcopal) of the diocese of Pennsylvania will soon resign his office. He is about 40 years of age and a native of Pennsylvania. He was a student at the United States Naval academy at Annapolis, Md., and after his graduation spent some time in the naval service. Leaving the navy he turned his attention to theology, and was ordained about twelve years ago.

Couldn't Keep Him Out.
The grand old doortender looked down at the little man with the fiery red hair. "And who are you?" he asked. "My name is Funston," said the little man. "Some people call me Fred, and some call me general. I'm from Kansas, U. S. A." The saint smiled. "Do I get in?" asked the little man. The saint smiled again. "I fancy," he said, "that there's no use of trying to keep you out. If I should shut the gate on you I haven't the slightest doubt that you'd swim in the moat and scale the wall before I could say embalmed beef! Walk in."

GOLF CLUB'S FORMAL OPENING YESTERDAY

SINNISSIPPI HEADQUARTERS A PICTURESQUE ONE.

One Hundred and Fifty Enthusiasts Present—Ladies Taking Part Were Special Guests of Honor—Picnic Supper Served in the Spacious Basement of the Club House.

Pink coats dotted Buckleton links yesterday afternoon—pink coats and plaid skirts. One hundred and fifty enthusiasts joined in the Sinissippi Golf club's formal opening and made the scene about the new club house a picturesque one.

The ladies who took part in the minstrel performance were especial guests of honor. They showed their versatility by taking to golf as naturally as they assumed burnt cork a month ago. Some promising initiates were also found among the stockholders in the Country club.

Beginning at three o'clock, there was a nine-hole handicap match. The prizes consisted of one dozen golf balls, divided as follows: First prize, five balls; second prize, four balls; third prize, two balls; fourth prize, one ball. The prize winners were: First prize, Albert Schaller; second prize, Colin C. MacLean; third prize, A. C. Jenkins; fourth prize, Orion Sutherland. These were the scores:

Handicap.	Gross.	Net.
Al. Schaller.....	0	40
Colin C. MacLean.....	0	50
A. C. Jenkins.....	8	51
O. Sutherland.....	4	58
Harry McKinnon.....	4	58
Charles L. Field.....	10	69
Frank E. Field.....	0	61
James J. Hall.....	4	65
Joseph P. Baker.....	0	63
Charles J. Myhr.....	10	75
Ross Kirg.....	15	80

About 7 o'clock a picnic supper was served in the spacious basement of the club house and later the party strolled about the grounds and enjoyed the view from the porch. Then the dancing began, the Imperial orchestra furnishing music. The party was a complete success, and it has been arranged that other parties will be given every other Tuesday evening during the summer.

POTATOES ARE PLENTIFUL

Farmers Will Not Lack For All the Seed They Want.

Late in the winter it was reported that seed potatoes would be very scarce in this county and that they would bring enormous prices. The report was circulated at the time potatoes were bringing over 50 cents a bushel and when they could scarcely be had at that price. Things have changed since then, however, and they are now a burden on the market. Pits in which hundreds of bushels were stored have all been opened and with the exception of a few cases the potatoes were never found in better condition. When this new supply was put on the market it had a tendency to reduce prices. Many of the farmers who refused to dispose of their stock when prices were up are now endeavoring to get rid of them at any price rather than feed them out.

CREAMED SPINACH.—Remove all thick stems, roots and decayed portions from one peck of spinach. Let it stand in minutes in water, then lift it from the water to drain and wash again. Repeat until not a particle of grit is left in the pan. Cook in a large kettle half full of rapidly boiling, slightly salted water, uncovered, until tender. Turn into a colander; pour cold water through to remove the strong flavor, which is objectionable to many people. Drain very dry, chop fine, rub through a porous strainer. If still very moist, put it over the fire with a little butter to prevent sticking and stir until it dries off. Season with salt and paprika and stir in a few spoonfuls of cream, being careful not to have it too moist.

FISHER SUMMONED TO DELAVAN LAKE

GAME WARDEN RECEIVED HURRY TELEGRAM.

Left Janesville This Morning to Apprehend If Possible Illegal Fishermen—At Geneva Lake Deputy Game Warden Fisher Caused Six Arrests to Be Made.

State Deputy Game Warden F. D. Fisher, of this city, left Janesville this morning for Delavan Lake for the purpose of locating fishermen whom it is alleged are catching fish there in an illegal manner.

Warden Fisher says that the fish law is daily being violated in this part of the state and that it possible the guilty parties will be apprehended and brought into court.

Last week Deputy Fisher took Lake Geneva fishermen by surprise.

At night he took a trip over on the south shore and returned with Thomas Helgert and William Bullman of Lyons township, whom he caught in a boat together with all the necessary spears, jack, etc., which is contrary to the law made and provided. The boys agreed to report next day and were allowed to depart. The Warden and Marshal Richard, who was with him, came pretty near nipping a couple more of the fellows, but they jumped from the boat and took a run of forty rods along the shore in the water, regardless of the bullets sent after them by the officers. The boat was captured and in it was found a couple of coats and other things sufficient to give the officers pointers as to whom the parties were.

The next morning Helgert and Bullman appeared before Justice Wind, plead guilty, and were fined ten dollars apiece which together with the costs, amounted to \$27.20.

Saturday night the warden took a trip up to Williams Bay when he found Everett Davis and William Glehagan intently spearing for suckers. They were arrested and agreed to report before Judge Wind Monday. They did so, plead guilty and were fined ten dollars apiece and costs, amounting to forty-five dollars.

NEWS OF A PERSONAL NATURE

DIFFER AS TO DR. M'GIFERT.

Two Reports Now Before the Presbyterian Committee.

EFFORTS TO AVOID A TRIAL.

The Offending Divine to Be Asked to Withdraw Quietly from the Church—Time Not Yet ripe for Uniting the Two Great Branches.

Minneapolis, Minn., May 24.—The Presbyterian general assembly is still talking about the case of Dr. McGiffert. The committee on bills and overtures has already wrestled with it and it is known that two forms of report have been before the committee.

One report, it is understood, favors the heroic remedy of recommending that the New York Presbyterian tackle the case and try Dr. McGiffert. The other report favors the appointment of a special committee which shall be instructed to call upon and labor with Dr. McGiffert to see if it is not possible to get him to modify his views or else quietly withdraw from the church and spare it the pain of a heresy trial.

The morning session of the assembly was given up to a discussion of the work done by Presbyterian home missions, and the fact that the debt of \$167,000 existing a year ago has been wiped out was the cause of great enthusiasm. Reports from various fields were also considered very encouraging.

Preceding the discussion of the home missionary work several most interesting reports were made by the standing committee on bills and overtures. Dr. Radcliffe, chairman of the committee, reported that in the opinion of the committee the time had not come for uniting the two great branches of the church in the United States. "In the whole matter, as conditions now are," said Dr. Radcliffe, "the committee is of the opinion that the only course for the church is to maintain a dignified silence." The report was adopted.

There was a cropping out of what might be looked upon as denominational jealousy when Dr. Radcliffe, from the committee on bills and overtures, reported on the overture from the Presbytery of Baltimore protesting that the naval cadets at Annapolis are not allowed religious freedom. A letter was read from Secretary Long saying that there is, in his opinion, no cause for alarm; that the cadets are not interfered with in their religious opinions or church preferences; that the chaplain of the academy is a Methodist, and a very fair and impartial spiritual adviser. The matter was not decided because of a lack of time, but there is not likely to be any trouble over it.

Just how the Presbyterian church will celebrate the going out of the old century and the advent of the new has not been determined. A committee was appointed to select some fitting way of expressing gratitude for mercies shown.

Aid for schools and colleges was the subject taken up at the afternoon session. In submitting the report of the committee Dr. Shaw of New York urged the necessity of raising more money for this branch of the church work. The average amount raised by each church last year, he said, was only \$6, and no institution secured over \$900, though private subscriptions had added to the funds to be distributed. Dr. Shaw thought the amount raised for this board should be trebled. Dr. Ray, secretary of the board, and others, also spoke.

The woman's board of home missions listened to reports from syndical missionaries and re-elected Mrs. Darwin R. James, New York, president.

Whooping Cough.

I had a little boy who was nearly dead from an attack of whooping cough. My neighbors recommended Chamberlain's Cough Remedy. I did not think that any medicine would help him, but after giving him a few doses of that remedy I noticed an improvement, and one bottle cured him entirely. It is the best cough medicine I ever had in the house.—J. L. Moore, South Burgettstown, Pa. For sale by People's Drug Co.

Plague Cases at Alexandria.

Alexandria, May 25.—Three more cases of plague have been discovered and two deaths from the disease are reported. Two cases have also appeared at Zagazig and two at Ismailia.

Many old soldiers now feel the effects of the hard service they endured during the war. Mr. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did so much good that I would like to know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors, as every family should have a bottle of it in their home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and burns, for which it is unequalled. Bays American Engines.

Philadelphia, May 24.—The Grand Central railroad of England has placed an order for twenty locomotives with the Baldwin works of this city. They are to be freight engines, of the same character and design as those now under construction at Baldwin's for the Midland railway of England. Another English railway, the Great Northern, recently ordered a number of engines from the Baldwin works.

Twenty-Four Persons Drown.

Berlin, May 24.—Fourteen persons were drowned Tuesday by the capsizing of a ferry boat on the Danube, near Straubing, Bavaria. Another and similar accident occurred to-day at Simbach, Bavaria, where ten persons were drowned in the River Inn, one of the principal affluents of the Danube, by the capsizing of a boat.

Spain to Suspend Payment.

Madrid, May 24.—The coupons of the public debt falling due after July 1 will come under the next budget and the government will pay none of them until this payment is approved by the cortes. Senor Villaverde, minister of finance, informed the cabinet that he had ordered the Bank of Spain to suspend drawing upon the government for the redemption of the 4 per cent bonds. The government has not the necessary credit of 10,000,000 pesetas. The cabinet approved his action.

German Officers Killed.

London, May 24.—A dispatch to the Daily Mail from Tien-Tsin says that the Chinese killed three German officers at Ichu on May 20. The dispatch adds that it is expected that the reactionary party in Peking will oppose the payment of an indemnity, thus forcing Germany to take steps to compel China to pay for the murder of her officers.

Miller Meets Kruger May 31.

Cape Town, May 25.—Sir Alfred Miller, governor of Cape Colony, will start for Bloemfontein on May 29, and while there will be the guest of the Orange Free State. His first meeting with President Kruger of the South African Republic will take place on Wednesday, May 31.

Eight-Hour Day Is Favored.

Brussels, May 24.—The international miners' congress, which is sitting here, has voted by an immense majority in favor of the enforcement of a legal eight-hour day. The British delegates were the only dissenters.

GOLD TO BE THE STANDARD.

Idea Is to Enact Understanding Into a Positive Law.

COMMITTEE NOW AT WORK.

Republican Advocates of Currency Reform Would Make All the Obligations of the Country Payable in Gold on Demand—Banks to Issue Notes.

New York, May 24.—A special to the Herald from Washington says: "Advocates of currency reform are somewhat disappointed with the results of the deliberations of the republican caucus committee appointed to formulate a legislative program. It had been hoped the members of this commission would agree upon a comprehensive scheme of currency and bank reform that would command the support of a majority in each house of congress."

"This committee was, however, confronted by the fact that whatever bill is carried through congress must be put forward as a republican party measure and must have the support of practically the entire republican membership in the house, where their majority is very small. There were disagreements among the members of the committee themselves, and even those who were prepared to indorse the principle of the Indianapolis scheme were unable to get together as to details."

"The program proposes to adopt definitely the gold standard by enacting into positive law what is now largely a matter of construction and precedent and making all the obligations of the country payable in gold on demand. The proposition to reissue greenbacks only in exchange for gold will if enacted destroy the 'endless chain' and prevent the same greenbacks being used time after time to withdraw gold from the treasury."

"It is proposed to permit the banks to issue notes up to the par value of their bonds and to permit the establishment of banks of \$25,000 capital in small towns."

"We and Our Four Economic"

is the title of a very charming and entertainingly written story which has just been issued in book form by the Passenger Department of the Lake Shore & Michigan Southern Ry. The intending summer tourist will find it not only interesting but instructive. It will be sent free to any address on application to F. M. Byron, G. W. A., Chicago, or J. R. Hurley, T. P. A., No. 100 Wisconsin St., Milwaukee, Wis., or J. Smith, G. P. A., Cleveland.

An Example.

"Do you approve of coeducational schools?" asked the father of three lively boys.

"Oh, they have their advantages and their disadvantages, of course," said the person to whom he appealed. "I judge from your course with Harold that you are in favor of the system. Professor James tells me he is a very bright scholar."

"Perhaps so," said the father, doubtfully. "But I had a little conversation with Harold yesterday that stays in my mind. I said pleasantly to him, 'Harold, somebody told me the other day that the girls and boys at Codman Hall were better known for caricatures and puns than for scholarship.'"

"Oh," said Harold, "that all comes of the story that's leaked out about the sketch made on the blackboard by Ann Drew. Ann drew Andrew Andrews and rues it."

Selling Indecent Books.

A London bookseller has just been sentenced to nine months' imprisonment for selling indecent French books in spite of his counsel's plea that a book in a foreign language could not corrupt the morals of her majesty's subjects. Though this was the first successful prosecution on record where the book was not in English, the court would not allow the appeal.

Her Philosophy.

Guests were expected for dinner at little Flossie's home the other evening and she was in consequence hustled off to bed and milk and bread an hour earlier than usual. "Here you grown-up folks," she sighed, as she was laid away, "are going to sit up in your best clothes all evening and eat all those nice things, while I've got to go upstairs with nothing to eat but old bread and milk and go to bed early. Never mind," after a reflective pause, "after awhile I'll grow up and then I'll have all the nice things and you'll all be dead."—Kansas City Star.

What \$12 Will Buy....

The above named price is marked on several hundred very swell, very pretty, very excellent suits, all bearing the label—Ziegler. The fabrics are pure wool fabrics in fancy patterned colorings, as well as plain black and blue, shapes of coats are double as well as single breasted, and the entire appearance and serviceability of these suits are equal to any which you may have made to measure at \$25.

There is a reason why we sell these Suits at so low a price, but it concerns you not, as it has no bearing at all on quality or price.

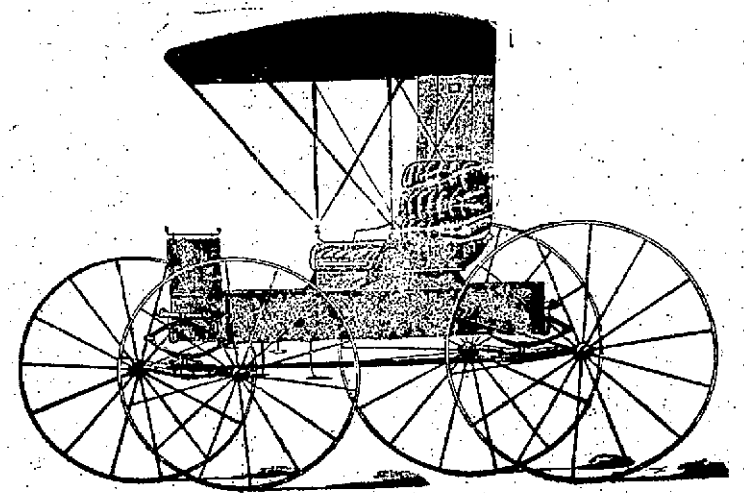

These are rich pickings for early comers. Sluggards lose many a rich plum in this world of opportunities. A Ziegler suit for \$12 is an opportunity which should not be lost.

This holds good in a Furnace as much as in anything else. A poor, cheap Furnace is the bane to any man's life. He pays almost as much for a half good heater as he would for a

Mueller Double Radiator,
all cast Furnace, and in a few years different parts or the whole apparatus must be replaced.

Mueller's Cast Furnaces
last a life time, are more economical in fuel, and will absolutely not escape gas. No bolts are used throughout the Furnace. Fire pots are constructed in two heavy parts, allowing them to expand and contract at the very point where required.

Mueller Furnaces have many superior points over others—their being of cast iron adds weight and also extra heat. We have one set up on our floor so that you can see all about it.
